Microsoft Word Voice Magic

WordTalk

WordTalk is a free text reader for Microsoft Windows. Download it from www.WordTalk.org.uk.

Voice Notes

To add the Voice Note button to the Toolbar:

1. Click on View > Toolbars > Customize
2. Select the Commands tab, Insert from the Categories list and Voice Comment from the Commands list.
3. Drag the Voice Comment icon into one of the toolbars on display under the menu line.
4. Click on Close.

Recording a Voice note

5. Click on the Voice Comment button on the Toolbar
6. Click on the red Record button and start talking
7. Click the Stop button to stop and Play to play back your recording. Close the box and your voice note will be inserted into the Word document with a Speaker icon.
8. Double click on the Speaker icon to hear the note.
9. Drag your voice notes around the page and delete and re-record as many times as you want.
10. The voice notes are saved when you save the Word document.
